

Recent Operations

By Paul Rardin

Have you ever had the toothache? Who hasn't? Two weeks ago yesterday I had a spell of toothache that woke me up. In fact, if it hadn't been Thursday—the one day when I'm supposed to work harder than any other day—I guess maybe I'd taken a day off. But I struggled through the day. But the work and speaking of toothache that brought me to another subject along the same line.

You've heard about the dental clinic being operated in the Pahokee school for underprivileged children, haven't you? Most everybody knows about it and the excellent work that is being carried on. I've been interested in the work every since that day—ever since the young people, youngsters, accompanied by the county nurse trekking to the dental office operated by Dr. Blischer, the Wilder building is Pahokee. It's perfectly good work, and after all, why shouldn't they be? They were soon to receive dental treatment right here.

There are about 50 cases of braces at the Pahokee school, instead of being handed into West Palm Beach on a truck as was necessary before the dental clinic was opened.

I've been making a check of the clinic to find out what is being done. I found out that 51 cases have been handled up to this time. In these cases I found that Dr. Blischer had put in 50 dollars worth of extractions, given gum treatment to a couple of youngsters, not to say anything about the X-Ray work and treatment of teeth.

Any kid can tell all along that we have had a hard time. I don't think like a lot of other folks I just didn't have time out to investigate. I find that the youngsters, accompanied by the county nurse, have specified hours for visiting the office of Dr. Blischer and receive the best treatment.

Road 25 Opening Is First Aim of Belle Glade C. of C. Group

Newly Formed Organization Has Many Active Members

The newly formed Chamber of Commerce in Belle Glade has set for one of its first projects the completion of the 25 between Six Mile Bridge and Twenty Mile Bend. At a meeting of the club held Monday night at the school building, a road committee was formed. The committee, headed by F. Sculley to take necessary steps to bring about completion of the stretch of road referred to many times as "death's highway."

J. O. Doolin was appointed chairman of the road committee and his co-workers are: Dick Bowman, R. Y. Creech, Arthur Wells, R. H. Harris and Walter Greer. Alternates for these appointments are: B. E. Riedel and K. E. Lutz. A committee on statistics appointed to assist the road committee is composed of the following: H. J. Bratley, George H. H. Wirtz and Frank L. Frans. Another group to work in conjunction with the road committee and to be known as the contact committee was appointed as follows: Herbert D. Beck, L. E. W. C. McDonald, A. E. Kirchner, Harry Rabe and John Harris.

President J. F. Sculley appointed a membership committee headed by Guy Bender as chairman. The committee is composed of James L. Riedel, H. J. Bratley, Gus Glens, Van Vanhorn, L. H. Nash, A. E. Kirchner and G. A. Hubbell. These committees will make an effort to bring the members of the community to the hundred mark within the next few weeks. A report of the secretary, W. L. Cunningham, showed that 35 members had signed on the dotted line before the Monday night meeting. Since that time 17 more were added to the rolls, bringing the total membership to date up to 50. dues are \$5.00 per year and meetings will be held on

(Continued on Page 4)

Granting of a 60-day moratorium on Reconstruction Finance corporation foreclosures in the May primary. His official announcement will be forthcoming within a week or two, he said. He has no announced opposition. Terms of G. E. McClure, R. B. Mackay and J. B. Crosby on the town council expire this year and the corporation farms in the south Florida Conservation District will be approved certain this week with the approval of counsel for that federal agency. The move for such an extension on tax payments was started several months ago by Rep. Herbert D. Beck.

W. R. Satterfield, attorney for the RFC, wired Wilcox in West Palm Beach that the proposal met with his approval, provided disbursements to be made in arrears in their taxes would be notified to the RFC attorney in this district of their intent to satisfy the tax lien on or before April 10 of this year.

On the receipt of the letter,

W. L. Cunningham, showed

that 35 members had signed on the dotted line before the Monday night meeting. Since that time 17 more were added to the rolls, bringing the total membership to date up to 50. dues are \$5.00 per year and meetings will be held on

Pahokee Cagers

To End Schedule

With but three games remaining on the 1938 Pahokee high school cage schedule, Coach Frank Hobson has started point for the state district basketball tournament at Miami Beach on March 3-4.

Both the boy and girl teams

had their last game

night when they played with

the teams of that city, while

Monday night they will visit Fort

Pierce for a dual encounter with the quintets of that city.

Tuesday night will conclude their regular schedule with a clash with the Lake Worth team.

The last game will be played

with particular interest since it

is the last time that the Pahokee boys are scheduled to meet in

their first game of the district tournament.

In a previous game, the

Pahokee five came through

the Lake Worth team.

The last game will be played

with particular interest since it

is the last time that the Pahokee

boys are scheduled to meet in

their first game of the district

tournament.

In a previous game, the

THE NEED OF A ROAD PATROL

Resumption of Florida's highway patrol as a safeguard to the motoring public seems vitally needed, in the fact of the mounting list of fatal accidents reported by daily newspapers of the state. If nothing else, the presence of state patrolmen on the highway would have a salutary effect in curbing speed and uncontrolled driving.

As things stand now our highways are unpaved, a standing invitation to a certain type of driver to jam the throttle to the floorboards and race to Miami.

The daughter of the newspaper is the unpardonable thing about a percentage of our highway wrecks. Along with the self-assurance "speed-kings," the "tin-horn Barn Owls" of the road, there is to be considered the plain old average driver who has never learned the heart of "cutting in," who does not and never will hit 80 and in that great category of fatalities are recorded thousands whose lives are the dearest things in the world to somebody—wives and sisters, mothers and fathers, subject to hazards as dangerous as machine guns.

If we had a band of outlaws in Stuart, who killed two persons in three days—who accounted every year, for 30 to 40 citizens and their families, we would get up in arms, form posse, hunt them down. An efficient highway patrol would have the lives of hundreds. Just the presence of the patrolmen on the road is sufficient to cut the speed of the drivers to normal. Highway patrolmen can spot the drunken driver at a glance.

The funeral bills for the hundreds of persons who are killed in auto accidents each year, the hospital bills for the thousands more maimed or injured, would many times pay the cost of the highway patrols if the state of Florida had dropped for "economy" reasons—Stuart Daily News.

P.T.A. Thanks Board For \$80 School Fund

Officials of the Belle Glade Parent-Teacher association this week expressed thanks to the town commissioners for the appropriation of \$80 to be used toward the care of preschool children during the present school term.

The gift was approved at the meeting of the commission on February 16 and was made available as needed by the civic organization.

Some money will be used to pay to supply lunches and milk to needy children of public schools of the county. Some will also be spent for books.

20 MILES OF PILES USED AT THE FAIR

NEW YORK—More than 20 miles of piles, each about 100 feet long, were used to support the west coast of the Everglades to form firm foundations for buildings now going up at the site of New York World's Fair 1939. The piles necessary because the site is being converted from a reclaimed swamp land, part of which was used as an ash dump, while concrete caps are placed on the ground piles in most cases.

RUBBER PRODUCTION
Production of the Canadian rubber industry had a gross value of \$55,949,000 in 1935.

By Russell Kay.

I've been hitch hikin' around the state for the past year with a company with the "Piney" Exposition of the Western Newspaper Union. It's about the only chance I have to get out and visit with the newspaper boys.

With the 80 miles an hour pace that "Piney" maintains between towns is more or less detrimental to a guy's nerves and heart, the pleasant hours spent in company with members of the Fourth Estate can stop more than make up for it.

Starting with a swing through the Pinelands, Pensacola and up as far as New Port Richey, we then turned south covering all coast o'clock. Classes for all ages, C. B. Jordan, our superintendent.

Morning services will be held at 11 o'clock. The pastor will bring a special message on "BUILDING GOD'S HOUSE."

**Senator Pepper, Filer
Qualify for Election**

TALLAHASSEE, Feb. 24—United States Senator Claude Pepper Wednesday posted election fever with the state democratic committee to become the fourth to qualify for the senate race in the May primaries. Other who have qualified are former Governor Dave Shultz; Rep. M. W. Wilcox; Flory Moore of Lake City; and T. C. Merchant of Madison.

Also qualifying Wednesday was Henry H. Filer of Miami, who is seeking the seat in the house which was left vacant by the withdrawal of Rep. Wilcox.

Also qualifying Wednesday was Judge Elmer Ward of Ft. Myers. Ward is the youngest judge to be elected in the country. This year he is again attempting to break political tradition of 50 years standing in his campaign for election to the office of senator from the forty-fourth district at the age of only 28 years. If he wins, it will be the first time since 1888 that a judge from this district, which includes Lee, Hendry, Collier and Monroe counties, has been elected outside of Key West.

Arthur Gomez of Key West, the last senator, resigned in 1887, legislative to accept an appointment as circuit judge in the 1890s, and as a circuit judge, succeeded the late Judge Jefferson B. Browne.

The twenty-fourth district is one of the largest in the state; and in the 1930 election between Lee and Monroe counties, it elected less than a fifth of the total vote, its candidate being always managed to win the election to the state senate.

When he was elected county attorney of Lee county 22 years ago, Judge Ward became the youngest judge in the country.

Spring elections include the following:

The Royal Yacht Club's regatta on the campus, Saturday, Feb. 26. Those taking part in this regatta will be the University of Florida agricultural students and the Florida State College for Women, 4-H girls.

The big Military Ball, which will take place early in March, is expected to be the biggest and most popular annual ball in the state. The annual ball is the largest social function of the scholastic year.

The General College weekend to be held later on in March is the big event of the year for seven South Florida counties where the students have been attending the general college.

The spring weather has also spirit into all of the athletic activities. Spring football practice has been under way for two weeks, with games to be played out April 10th out for practice. Roy Green of Belle Glade, swimming has taken the interest of many at the moment.

Adrian Daane had his sisters and brother-in-law as visitors this week-end.

It is estimated that during 1937 something like 2,500,000 to 3,000,000 cars were junked.

**Seek to Speed Work
On State Highway 26**

MIAMI, Feb. 24—County commissioners of Dade and Broward counties convened here last Monday in an effort to speed up construction of state road No. 26 between Lake Okeechobee and this southern metropolis.

Broward representatives explained that they had only recently completed condemnation proceedings of 50 years standing in their campaign for election to the office of senator from the forty-fourth district at the age of only 28 years. If he wins, it will be the first time since 1888 that a judge from this district, which includes Lee, Hendry, Collier and Monroe counties, has been elected outside of Key West.

Arthur Gomez of Key West, the last senator, resigned in 1887, legislative to accept an appointment as circuit judge in the 1890s, and as a circuit judge, succeeded the late Judge Jefferson B. Browne.

The twenty-fourth district is one of the largest in the state; and in the 1930 election between Lee and Monroe counties, it elected less than a fifth of the total vote, its candidate being always managed to win the election to the state senate.

When he was elected county attorney of Lee county 22 years ago, Judge Ward became the youngest judge in the country.

Spring elections include the following:

O. G. McWhorter of Belle Glade, Forrest Banning, Pahokee, Survive Golf Trials

Three Everglades towns, Belle Glade, Pahokee and Clewiston, remain in the running this week for representation in the Everglades Golf championship being played over the Clewiston Golf club links.

Forrest Banning is the lone Pahokee survivor, having won his way to the semi-finals last week with a shot of 72, while the champion, the son of Larry, who was beaten by O. G. McWhorter, the eccentric unofficial champion, will carry the banner for Belle Glade, while Clewiston, for two Shadley brothers, Emmett and Tom.

Probably the outstanding performer of last week's matches was Tom Shadley, the Clewiston skipper, who, in the elimination, had the best of Larry, who was beaten close up victory. Although his margin of victory was narrow, Shadley demonstrated he is a good player, hitting his shots after a long lay-off. The two Shadley brothers, Hiram and Temple, Terrell's club champion of Tampa will be hard to take out, but continues in the groove.

O. G. McWhorter, Belle Glade's lone survivor, also served notice he is ready for a stretch, by taking a 4 and 3 match over Tom Betzner, another fine Belle Glade entry. McWhorter, shot a neat 40-38-78 to win his way to the finals. Tom Shadley, of Belle Glade, will be the one off to the semi-finals.

Championship flight: Dr. W. J. Ward (21) beat Dick Peacock (20), John Harris (15) vs. Winner of (H. J. Knapp (15) vs. W. G. McWhorter (15), Ed Ward (21), Winner of T. G. Kirkpatrick (15), Winner of T. G. Duff (21), C. V. Parkinson (15).

Former Dist. Governor Speaks Before Rotarians

Midfield McCracken of Clewiston and Mildred McCracken of Clewiston, with a nice card of 92, eliminated W. C. Prewitt, 8 up; and Owen taking out his son, 1 up.

Semi-final matches in the fourth flight will be exclusively Belle Glade, with Luther Jones (15) vs. Winner of (H. J. Knapp (15) vs. W. G. McWhorter (15), Luther tangling with Gray VanLandingham.

Victories in the Bye-Consolation flight were registered by Dr. W. J. Ward and Ed Ward.

They beat Dr. S. J. Simmon and S. K. Stinson, respectively, 1 up and 6 and 5.

Semi-final matches in the fifth flight will be exclusively with Emmett Shadley, Forrest Banning, Tom Shadley, O. G. McWhorter, and Ed Ward.

Tom Shadley, Playing O. G. McWhorter, will be the one off to the semi-finals.

Mr. Shadley was district governor of Rotarians when the club was under way at the Pahokee club in 1929. At the meeting yesterday, only five charter members were present.

Alfred Wagg, father of the late Alfred Wagg, of West Palm Beach, and MacMullen of Clewiston, were visitors.

Wells, Ralph Freeman, J. H. Chamberlain, A. J. Kirchen, Herbert Gardner, and H. D. Beck of the Game and Fresh Water Fish commission may be asked to de-

Dye Used In Coloring Citrus Is No More Harmful Than Dye Used To Color Butter

TAMPA, Feb. 24.—(FNS)—The

use of dye in coloring citrus is no more harmful than the dye used in coloring butter, according to a statement made last week by Dr. Schwartz, director of the Bureau of the United States Public Health Service, and a noted specialist in citrus and skin diseases.

Last week Dr. Schwartz, a man in a pink suit, investigating a report that some who handled and ate colored citrus had developed a skin disease. He examined

thousands of citrus workers in canneries, packing houses and in groves. He tested workers with the dye used and found the coloring perfectly safe.

He said: "I have not been able to eat the peel or to make marmalade from it." Dr. Schwartz said:

"Certainly no one ever contracted

any disease from this dye. We eat colored citrus all the time; well, the coloring used on oranges is just about the same."

Eradication Of Tick-Infested Deer To Be Started Soon By Livestock Board

TALLAHASSEE, Feb. 24.—(FNS)—The campaign for the killing of tick-infested deer by the state Livestock Sanitary board

in north Florida counties, will start in about three weeks according to plans made by the board here last week.

The eradication campaign will be conducted by agents of the Peavey-Wagon Lumber company and McCrory Lumber. These two companies, were notified that they could proceed as agents of the board to kill deer on the 500,000 acres of land they own in Orange and Osceola counties.

Dr. Knapp said that only wild deer in the swamps will be exterminated as deer in the open woods are not infested with the tick.

He predicted that not more than 500 deer would be killed in all.

clare an open season for sportsmen in these counties.

Bob Beardsley, high school member, had as his guest yesterday, Snoopy Miller, author Willits, deputy club singing was led by Rev.

Frank Martin of the Pahokee Methodist church with Mrs. P. E. Walker at the piano.

True Confession' Is Barrymore Hit

If Hollywood producers know anything, they do—will never again see John Barrymore in anything but a light-comedy

That, at least, is the indication from the magnificent performance which Barrymore has turned in in his current film, "True Confession," in which he is costarred with the great actress and Fred MacMurray, and which plays at the Prince Theatre in Pahokee on Sunday and Monday. "True Confession," Barrymore plays, the part of a drink-calgang eccentric who calls for every possible type of action that an actor can bring to the character in question. He portrays not merely a chiseling drunk, but a "drunk in love" with the joy of living, a drunk who has been lifted to a world where everything is unimportant and picayune, and in which he alone is important.

Barrymore romps and plays his last, though not last, act; he josses all inhibitions, which would make any other actor dull and stodgy. When the mood comes on him, he twirls his walking stick, like the tail of a bird of rare plumage; he hops and slips his way through a succession of fantastic situations, which, through the artistry with which he endows them, succeed in being magnificently rather than merely unconvincing.

Barrymore is no stranger to deft, light-comedy performances. When he first started in the theater and on the stage, following in the footsteps of his family, the Royal Family of the American Theatre, he played the part of old roles, "old-timers," recall with glee his sterling performances in "Madame Bovary," "Blankley's" and "General Custer," and contemporaries will recall him in his role in the motion-picture, "Tayor of the Century," and the deft sense of comedy timing while he brought off his screen performance of Merchant of Venice.

"True Confession," adapted from the famous French play, "Monsieur," by Louis Verneuil and George Herr, is the story of a girl who, rather than die of starvation, marries to a man more than twice her age, George Washington.

The roles of the couple are played by Carole Lombard and Fred MacMurray, in order to bring MacMurray, a struggling lawyer, some business. Mrs. Lombard confesses to having committed a murder for which she is entirely innocent, and when MacMurray succeeds in her acquittal, Barrowmore steps in to blackmail Miss Lombard that she did not commit the murder.

The picture, as said a place of interest, has ever made its way to the public, is enlivened by the presence, in the supporting cast, of Uta Merkel, Edgred Kennedy, Fred Field, John T. Murray and Porter Hall.

Two MONTHS PASS WITH LITTLE RAIN

Local statistics show that the Lake Okeechobee region has had little rainfall since the first of the year. During the past two months only 3-4 of an inch of rain has fallen. Recordings are made daily at the U. S. Sugar Cane Testing station north of Canal Point.

At Your Best! Free From Constipation Nothing beats a clean system to

At the first sign of constipation, take a powerful black draught for prompt relief.

Many men and women are not black draught regulars. It is a good idea to take black draught every day, as it is a good laxative.

Black Draught is a good laxative.
